As a passionate Developer and a student at University of West London, I was elated to see an opening for a Junior Web Developer role. I have experience in HTML, CSS, and JavaScript. Combined with my recent projects in front-end web development, I am confident I have the skills to help your Company succeed.

I have always been passionate about web development, which led me to pursue a Bachelor of Computer Science degree. I am constantly seeking out new technologies and staying up-to-date on trends in the industry. I would be so thrilled to join the team as a volunteering Web Developer.

I have attached a copy of my resume detailing my education and experience. I can be reached anytime by phone at 07861276760 or email at elvin.bilo@icloud.com. Thank you for your time and consideration. I look forward to speaking with you soon.

Best Regards,
Ervin Bilo
